Re: Asbestos Management Plan Availability

Asbestos containing building materials (ACBM) are present at Central School District #104. These asbestos materials are located at Central Elementary School and are in good condition.

In accordance with the Federal Asbestos Hazard Emergency Response Act (AHERA), an accredited inspector and management planner have completed a review of the locations, quantities and friability of the asbestos containing materials and have prepared an assessment and response action plan to reduce exposure to asbestos fibers.

Copies of the asbestos management plan for Central Elementary School, which includes the inspection report, are located in the District Office at 309 Hartman Lane, O'Fallon, Illinois.

The plan is available to the public for inspection without cost or restriction within five working days after receiving a written request for inspection. Hours of availability and a copy of the form, "Request for Inspection of Management Plan," will be provided upon request.

Should a request be made for a copy of the report or parts of the report, Central School District #104 will charge \$0.25 per page to make copies of the plan.

If you have further questions, please contact the Central School Office at (618) 632-6336.
